Standard Evaluation (SE)

The SE (Standard Evaluation) is not a breed test. RKNA encourages all breeders to place SE on their breeding stock as RKNA believes breeders should know the measurements of dogs they are breeding as well as eye colour. The SE ensures the dog has a passing hip and elbow rating and is free of disqualifying fault under FCI standard. Puppy buyers are encouraged to only purchase pups whose parents possess either a SE or a Ztp. The dog must have a passing hip and elbow rating and permanent identification (tattoo or microchip). Once the conformation and soundness qualifications have been met, the dog's traffic sureness is tested. This test includes a gun sureness test and a test to ensure the dog is stable around the public. If a dog has a SE and loses a tooth, the dog may still be bred and may also attempt the Ztp.

Zuchtauglichkeitsprüfung (Ztp)

The Ztp (Zuchtauglichkeitsprüfung) is designed to select those Rottweilers who are worthy of being bred. The dog's conformation must be judged of breeding quality and free of disqualifying faults. The dog must have a passing hip and elbow rating and permanent identification (tattoo or microchip). Once the conformation and soundness qualifications have been met, the dog's temperament is tested. This test includes a gun sureness test, a protection test, and a test to ensure the dog is stable around the public. The Rottweiler Klub of North America strongly believes that these tests are vital to maintaining the Rottweiler in type and temperament and should be the foundation of any breeding program.

Gekört / Gekört bis EzA

Gekört is designed to select those Rottweilers who are the best dogs in order to improve the overall qualities of the Rottweiler. Males must be IPO 3 and females IPO 1, must have an AD and three show ratings under two different judges of SG or better. The protection routine shall be the FCI IPO 3 protection routine. The IPO rule book can be downloaded from the RKNA website.

The Gekört bis EzA may be attempted 24 months after a dog has earned the Gekört is the highest breed suitability title available and is the lifetime breed suitability test. A dog must have sired/whelped two litters where all offspring are free of disqualifying fault according to FCI standard.

Working Class

To compete in this class a dog must have earned an IPO title. International Prüfungsordnung (IPO) is an internationally recognized temperament test for the working breeds. The dog must pass a tracking test, an obedience test and a protection test. The exercises in all three phases of the tests are designed to demonstrate the dog's natural drive to work for a handler as well as the strength of character that it takes to have those drives molded into a disciplined behavior. It is the goal of the Rottweiler Klub of North America to promote the working Rottweiler through the IPO sport.
